

SupraXan Premium

SupraXan Premium is an environmentally friendly polymer mud or bentonite-free drilling solution, in fresh and salines conditions that is effective in all ground types, meeting the primary requirements of drilling fluid: hole stabilization and removal of cuttings.

The advantages of SupraXan Premium:

- Highly effective in low concentration
- 100% Biodegradable, environmental friendly
- Improved whole cleaning and suspension properties
- Stabilises unconsolidated formation
- Helps to reduce friction

Recipe for 1000 ltr H2O	Kilograms per 1000 litres of water
Clays & Silts	2-4 kg
Sands & Gravel	3-6 kg
Rocks	3-5 kg

Properties

pH (1% solution)	6-8
Bulk density	750 kg/m ³

Mixing and recommended treatment

Pour slowly through a hopper at maximum shear to avoid lumping and to minimize waste. Add 2 – 6 kg/m³ of SupraXan Premium to prepare HDD bentonite-free drilling fluid.

Packaging

SupraXan Premium is packed in 25 kg multiply paper bags, 40 bags on pallet
